BUREAU OF LABOR AND INDUSTRIES

July 1, 2007

In January and July of each year, the Bureau of Labor and Industries publishes the prevailing wage rates that are required to be paid to workers on non-residential public works projects in the state of Oregon. Quarterly updates are published in April and October.

Prevailing wage rates are the minimum wages that must be paid to all workers employed in the construction, reconstruction, major renovation or painting of all public works, unless specifically exempted by state law. These rates are determined using data collected from an annual statewide construction industry wage survey of occupations and crafts performing commercial building and heavy and highway construction in 14 geographic regions of the state.

ORS 279C.838 requires the higher of either the state prevailing wage rates or federal Davis-Bacon rates to be paid to workers on projects in Oregon subject to **both** the state PWR law and federal Davis-Bacon Act. The law further requires the Oregon Bureau of Labor and Industries to compare state and federal rates for each occupation in each locality in the state, and publish and make available information showing which rate is higher for each occupation.

A separate publication, entitled "*PREVAILING WAGE RATES for Public Works Contracts in Oregon subject to BOTH the state PWR and federal Davis-Bacon Act*" provides the applicable rates to be paid to workers on projects subject to **both** the state Prevailing Wage Rate law and federal Davis-Bacon Act. This publication is available upon request and is also available electronically at www.oregon.gov/boli.

Different wage rates apply to residential projects subject to the PWR law. Contact BOLI for more information.

ORS 279C.830 requires that the applicable wage rates be incorporated into all bid specifications for public works contracts subject to the PWR law. A statement incorporating the applicable prevailing wage rate publication and any amendments thereto or Davis-Bacon wage rate determination into the specifications *by reference* will satisfy these requirements. Such reference must include the title of the applicable wage rates publication or determination and the date of the publication or determination as well as the date of any applicable amendments. A provision that prevailing wage rates must be paid must also appear in the contract. The rates in effect at the time the bid specifications are first advertised are those that apply for the duration of the project, with one exception: If, during the bidding process, the prevailing wage rates change, the public contracting agency has the option of amending the bid specifications to reflect such changes.

If you identify any errors in the rates published, or if you have any questions regarding application of the state PWR law or the applicable rates to be paid on any project, contact the bureau's Prevailing Wage Coordinator in Portland at (971) 673-0839.

HOW TO LOOK UP A RATE

1. When was the project first advertised for bid?

The rates in effect at the time the bid specifications are first advertised are those that apply for the duration of the project.

2. What type of work is being performed by the employee?

Find the definition that most closely matches the actual work being performed by the worker. If you have any questions about work classifications, contact BOLI at the number below.

3. Where is the work being performed – what county?

Find the occupation in the correct county pages associated with the county where the project construction is taking place.

4. Is there a rate listed next to the classification?

If so, use it.

5. If the book directs you to “See Appendix-DB,” go to the back of the book and use the rate listed in the Davis-Bacon Appendix pages. If the book directs you to “See Appendix-State,” go to the back of the book and use the rate listed in the State Appendix pages. If the book states “SAME”, refer to either the Davis-Bacon Appendix or the State Appendix. The rate may include a group number and/or zone pay. Zone pay is added to the base rate.

Federal Davis-Bacon rates may be amended at any time. It is recommended that users of this publication verify that the applicable federal rates have not been amended before relying on the rates contained in this publication. The applicable Davis-Bacon rates for Oregon are available at:

<http://www.access.gpo.gov/davisbacon/or.html>.

6. In most situations, Apprentices must be paid the full fringe rate in those counties where the state appendix rate does not apply. However, if the book directs you to "See State Appendix," and the worker is registered in a bona fide apprenticeship program, you may contact BOLI at (971) 673-0839 for the applicable hourly fringe rate.

7. If you still don't know CALL BOLI at (971) 673-0839.

They also do loading of any regulated materials after it has been removed, bagged and tagged, as well as cleanup at the removal site and all work done at the disposal site. Persons performing the removal of regulated materials are classified as Group 3 Laborers.
