

The information contained in this document was current at the time of publication, **October 7 2009**, but is subject to change and is provided here for general information only.

Combination Licenses (CO)

Holds both an embalmer and a funeral service practitioner license.

Embalmer (EM)

It is strictly prohibited by Oregon Statute to practice as an embalmer until you are fully licensed or certificated as an embalmer apprentice. Only a licensed embalmer or certificated embalmer apprentice shall: (a) Provide the necessary handling and preparation of human remains, e.g. washing, disinfecting, setting features, embalming and supervising dressing; and, (b) Perform the required sanitizing of the preparation room, including but not limited to, embalming tables, work surfaces, sinks, floors, instruments, and handling and properly disposing of contaminated waste.

Embalmer Apprentice (AE)

Embalmer apprentices must complete a twelve-month apprenticeship in Oregon under the personal supervision of an Oregon licensed embalmer, are required to work at least 30 hours per week and at least three days per week, excluding up to 30 days vacation a year, must assist in the preparation of at least 45 human remains during the apprenticeship period under the personal supervision of a licensed embalmer.

Funeral Service Practitioner (FSP)

It is strictly prohibited by Oregon Statute to practice as a FSP until you are fully licensed or certificated as a FSP apprentice. An individual practices as a FSP if the individual for payment is engaged directly or indirectly in supervising or otherwise controlling the transportation, care, preparation, processing and handling of dead human bodies before the bodies undergo cremation, entombment or burial, or before the bodies are transported out of the State of Oregon. Only a FSP or FSP apprentice shall: (a) Work directly with at need persons to arrange for the disposition of human remains; and (b) Coordinate and direct the various tasks associated with performing funeral services for at need persons including but not limited to: taking all vital information on the deceased for the purpose of filing the death certificate; arranging for transportation of the remains; coordinating the services for final disposition; supervising or otherwise controlling the care, preparation, processing and handling of human remains.

Funeral Service Practitioner Apprentice (AF)

Funeral service practitioner apprentices are required to serve a twelve-month apprenticeship in Oregon under the personal supervision of an Oregon licensed FSP, are required to work a minimum of 30 hours a week during normal business hours, excluding up to 30 days of vacation time per year, and must assist in the planning of at least 25 funerals or dispositions per year through some form of direct contact with the family or representative of the deceased.

Intern Apprentice (IP)

An intern apprentice is any student enrolled in the Mt. Hood Community College Funeral Service Education Internship Program who is serving his / her intern apprenticeship at a participating funeral establishment.

Intern apprentices shall serve their apprenticeships in accordance with the internship guidelines established by the Mt. Hood Community College's Funeral Service Education Program. The intern apprentice certificate shall be issued to the applicant as an apprentice to a specified licensee. If the intern changes establishments or person to whom apprenticed, he / she shall file a request for approval of transfer with the Board immediately.

Preneed Salesperson (PN)

An individual may not engage in prearrangement or preconstruction (preneed) sales under ORS 97.923 to 97.949 unless the individual is registered as a "preneed salesperson" with the Oregon Mortuary and Cemetery Board. Individuals who are currently

licensed as a funeral service practitioner or embalmer or certificated as an apprentice funeral service practitioner or apprentice embalmer need not register separately to sell preneed. Endowment care cemetery salespersons engaging in prearrangement or preconstruction sales must register as a preneed salesperson.

The sale and conveyance of interment rights in existing plots, crypts or niches **does not** constitute preneed sales, even when the sale takes place years in advance of death. If one sells **only** existing plots, crypts or niches, one does not need to register to sell prearrangements (preneed). However, if you also sell goods or services that are not considered "delivered" at the time of the sale, like opening and closing, you must register as a preneed salesperson with the Oregon Mortuary and Cemetery Board.

Sales funded by insurance policy or an annuity contract are also excluded from the definition of preneed sales.

For individuals, the Oregon Mortuary and Cemetery Board decided not to release personal information (home address, email address, phone numbers), unless the personal license was printed with the facility's name. The facility's address is available from either the Facilities, Alphabetically link or the Facilities link.
