Use caution when driving through work zones. You may encounter traffic restrictions, lane closures, detours, and delays. Watch for signs, flaggers and pilot cars. Please drive carefully.

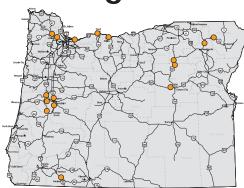

Form No. 734-2812

Investing in Oregon

The OTIA program is drawing to a close after repairing or replacing 365 state highway bridges and 141 city- and county-owned bridges,

2011 OTIA projects included on this map

repaving city streets and county roads, and modernizing key freight routes. In OTIA, every \$1 million spent on transportation projects supports approximately 14 family-wage jobs.

ConnectOregon is investing in Oregon's non-highway infrastructure to strengthen connections among all the modes of travel, such as rail, public transit, air and marine/ports. A strong multimodal program gives travelers options and reduces congestion around the state.

The Jobs and Transportation Act, passed by the 2009 Oregon Legislature, raises \$300 million per year to make strategic investments in all transportation sectors. It creates permanent programs to reduce greenhouse gas emissions and includes several innovative projects, such as a highway maintenance pilot involving the private sector. JTA projects are located all around the state, supporting local businesses and putting Oregonians back to work.

Projects funded by the American Recovery and Reinvestment Act are enhancing mobility and improving safety using \$410 million in recovery funds to support projects around the state.

Mobility

Oregon remains open for business even while ODOT modernizes the state's critical transportation corridors by repairing and replacing bridges, widening lanes and maintaining roadways.

ODOT is employing innovative traffic management techniques to minimize impacts to drivers. Whenever possible, closures will take place at night or during low traffic hours, but travelers should be prepared at all times for occasional delays.

Keeping people, goods and services moving efficiently and safely is a top priority for the state of Oregon. For up-to-date information about construction work, road incidents and travel delays, visit www.TripCheck.com or call 511.

Oregon Road Projects Key

The following descriptions will give you an idea of what to expect when you encounter a road project. The amount of delay and congestion depends on overall traffic volume, time of day, and the size and type of the project.

Reconstruction — The highway is being rebuilt. Some lanes may be shut down while others remain open to keep traffic flowing.

Resurfacing/Paving/Overlay — Adding pavement over existing road or structure. You will likely encounter lane closures and a lower speed limit. A chip seal will leave loose gravel over the resurfaced area to work into the pavement.

Bridge work — Bridges may be built alongside existing bridges with little in the way of traffic delays. Some bridge work may require lane closures or traffic detours.

Widening — Widening existing roads usually requires some lane closures, but typically only for portions of the project area.

Details for specific projects listed on this map are included on the inside of this brochure. Projects are listed by highway type and route number, then sorted by milepost. Information is subject to change.

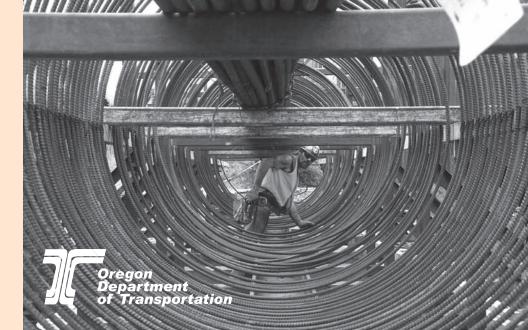

Projects funded through the Oregon Transportation Investment Act are denoted by OTIA in the project descriptions.

Summer 2011 Oregon Road Projects

Portland Area Projects

INTERSTATE HIGHWAYS

- I-5 Pacific Highway Replace signs in Marion County between MP 270 and MP 283. Possible minor delays. Completion: 12/2011.
- 2. I-5 Pacific Highway Beltline Unit 2, Gateway Unit 1 Randy Papé Beltline; Gateway Street between Kruse Way and International Way. Modernize and improve interchange, MP 195. No delays on I-5, delays up to 20 minutes on Beltline and Gateway. Completion: 7/2011. OTIA
- 3. **I-5** *Pacific Highway* Willamette River Bridge replacement, MP 192. Intermittent lane and ramp closures, rolling slowdowns; intermittent single lane closures on Franklin Boulevard; delays and detours to bicycle and pedestrian paths in Alton Baker Park. Completion: 2014. OTIA
- 4. I-5 Pacific Highway Improve vertical clearance of I-5 overpasses in Lane, Linn and Marion counties. Delays up to 20 minutes on ramps and overpasses; ramp closures; nighttime lane closures; shoulder closures; complete closures with detours. Completion:
- 5. **I-5** *Pacific Highway* Willamette River - Martin Creek pavement preservation, southbound: MP 169.2 -174.9; northbound MP 187.9 - 192.1. Nighttime work, minor delays. Completion: 9/2011.
- 6. I-5 Pacific Highway Elkhead Road to Sutherlin paving and climbing lanes, MP 136 - 154. Lane closures on I-5, intermittent ramp closures during paving. Completion: 2012.
- 7. I-5 Pacific Highway Del Rio Interchange realignment, exit 129. Ramp closures and intermittent lane closures around the interchange. Detours posted as necessary. Completion: 2012
- I-5 Pacific Highway Weaver Road extension, exit 106. Intermittent delays around the interchange. Completion: 2012.
- 9. I-5 Pacific Highway Ashland I-5 exits 14 and 19 bridge replacement and repair, MP 14 - 19. No delays expected on I-5; intermittent delays on bridges. Completion: 2012. OTIA
- 10. I-84 Old Oregon Trail Highway Pavement resurfacing (chip seal), MP 306 - 313. Loose rock on roadway, single lane travel, reduced speeds for about a week during summer months. Completion: 10/2011.
- 11. I-84 Old Oregon Trail Highway Paving between Baker City and Baldock Slough, MP 306 to 297. Reduced speeds, traffic pattern changes and single lane travel for eastbound and westbound traffic separated by reflective cones. Completion: 11/2011.
- 12. I-84 Old Oregon Trail Highway Rockfall correction along freeway shoulders. MP 220 - 221. Lane closures, minor delays. Completion: 11/2011.
- 13. I-84 Old Oregon Trail Highway Pavement preservation, grind/inlay between Tower Road exit and Stanfield exit, MP 159 - 188. Reduced speeds, lane closures, equipment on road at times, minor delays. Completion: 11/2011.
- 14. I-84 Columbia River Highway Replace bridge over 15 Mile Creek, MP 87.88 - 88.21. Traffic reduced to one lane in each direction, minor delays. Completion: 10/2011. OTIA
- 15. I-84 Columbia River Highway Install fencing along highway, MP 76.5 - MP 83.0. Minimal traffic disruption, reduced speeds, possible equipment on highway. Completion: 7/2011.
- 16. **I-84** *Columbia River Highway* Bridge replacement at exit 64 in Hood River, improvements to underpass, roadway and interchange. Reduced speeds, shifting travel lanes, continuous single lane closures; occasional nighttime closures of adjacent streets. Completion: 9/2011. OTIA

17. I-84 Columbia River Highway — Pave, stripe, replace guardrails along 15 miles of I-84 between Multnomah Falls and east Cascade Locks, MP 31.2 - 46.1, Daytime and nighttime lane closures, nighttime ramp closures. Completion: 7/2011.

U.S. HIGHWAYS

18. U.S. 20 Central Oregon Highway -Intersection realignment, sidewalk upgrades in Burns at Monroe Street (U.S. 20) and Hines Boulevard. Flaggers, lane restrictions, minor delays. Completion: 11/2011.

- 19. U.S. 20 Central Oregon Highway Pavement chip seal starting nine miles west of Harper to Vale, MP 214 - 246. Loose rock on roadway, single lane travel, flaggers, pilot cars, reduced speeds. Completion: 7/2011.
- 20. U.S. 20 Sanitam Highway Add acceleration lane and construct deceleration lane on Santiam Highway at Big Lake Road, MP 79.8 - MP 80.1. Minor delays. Completion: 7/2011.
- U.S. 20 McKenzie Central Oregon Highway - Sidewalk and signal upgrades, MP 20 MP 21. Single lane traffic, minor delays. Completion: 7/2011.
- 22. U.S. 20 Corvallis Newport North Bend Highway - Pioneer Mountain Loop Road to Yaquina River curve realignment near Sam's Creek Road, MP 14.5 - 16.3. Delays up to 20 minutes, single lane closures. Completion:
- 23. U.S. 20 Corvallis Albany Highway - Paving work, MP 0.7 - 10.4. Nighttime work. delays up to 20 minutes. Completion: 9/2011.
- 24. U.S. 26 John Day Highway Replace John Day River (Coles) Bridge five miles west of John Day. Occasional lane closures, flaggers, minor delays. Completion: 7/2011. OTIA
- U.S. 26 Mitchell Main Street Replacement of west access bridge, deck work on east access bridge, MP 66.2 - MP 66.6. Minimal traffic interference on U.S. 26, long term detours into Mitchell. Completion: 8/2012.
- U.S. 26 Sunset Highway: Dennis Edwards Tunnel — Replace timber lining inside the tunnel, improve drainage and lighting. Nighttime flagging and lane closures. Completion: 7/2011.
- 27. U.S. 26 Sunset Highway Military Creek Road to Wolf Creek. Improve guardrail, striping and signs along 11 miles of U.S. 26, MP 26 - 37. Daytime and nighttime lane closures with flaggers M-F; delays up to 10 minutes. Completion: 10/2011.
- 28. U.S. 26 Sunset Highway Retrofit the bridge crossing at North Fork Quartz Creek, MP 24. Daytime and nighttime lane closures with flaggers M-F; delays up to 10 minutes. Completion: 12/2010.
- 29. U.S. 26 Sunset Highway Remove/ replace Volmer Creek and Johnson Creek Bridges east of U.S. 101, MP 2 and 3. **24-hour flagging with single** lane alternating traffic during demolition of existing bridges and construction of new bridges between midnight on Sundays and 3 p.m. on Fridays. Delays less than 20 minutes. Completion: 10/2011.
- 30. U.S. 30 Huntington Highway Repair Lime Bridge at MP 0.46 adjacent to Langly Lane and I-84 exit 342. Intermittent closures of bridge and I-84 eastbound onramp at exit 342 during repair work. During closures, all U.S. 30 traffic needing access to the east side of the river in this section can use the Burnt River UPRR Bridge (green truss bridge), on U.S. 30 north of I-84, Huntington exit 345. Completion: 6/2011.

31. U.S. 30 La Grande - Baker Highway Oro Dell Bridge repairs at I-84 westbound on-ramp two miles west of La Grande, exit 259. I-84 westbound on-ramp at exit 259 closed during summer months. Traffic from La Grande to I-84 westbound use on-ramps at exits 261 and 265. Completion: 10/2011.

(46)

- 32. U.S. 30 Lower Columbia River Highway At the east end of Astoria, grind and pave project with pipe installation, mail box turnouts, and pavement markings between MP 92 and 97. Flagging with single lane alternating traffic, delays less than 20 minutes. Completion: 6/2011.
- 33. U.S. 30 Lower Columbia River ${\it Highway}-{\it Clatskanie}.$ Grind and pave project with pipe installation. sidewalk improvements, road widening, pavement markings from MP 60 - 70. Daytime one lane traffic in each direction in Clatskanie. Flagging with single lane alternating traffic, nighttime delays less than 20 minutes. Completion: 12/2011
- 34. U.S. 30 Lower Columbia River Highway - Eilertson Creek. Replace a culvert with a bridge five miles west of Clatskanie, MP 67.8. Intermittent daytime flagging on U.S. 30, multiweek closure of Marshland District Road at U.S. 30. Completion: 9/2011.
- 35. U.S. 30 Lower Columbia River Highway Swedetown Road to Oregon 47. Add continuous left turn lane, pave onemile section, improve sidewalks and Van Street. Daytime and nighttime lane closures with occasional flagging. Completion: 9/2011.
- 36. U.S. 97 Sherman Highway Spanish Hollow bridges deck resurfacing, MP 3 MP 3.3. Two lane road reduced to one lane, two-way traffic. Minor delays. Completion: 9/2011.
- 37. U.S. 97 The Dalles California Highway Widening to four lanes, MP 149 - 153. Single lane traffic, brief periodic closures. Completion: 11/2011

38. U.S. 97 The Dalles - California *Highway* — Streetscape and highway improvements from OR 31 to Crescent Ranger Station, MP 168 - 186. Nighttime work, delays up to 20 minutes. Completion: 11/2011
