

Oregon Sno-Parks

**DRIVER AND MOTOR VEHICLE SERVICES
OREGON DEPARTMENT OF TRANSPORTATION**

SNO-PARK PERMITS

Do you like to play in the snow, ski, snowboard, or snowmobile? Oregon's Sno-Park Program helps provide parking at many of your favorite winter recreation areas.

You must have a valid Sno-Park permit displayed in the windshield of your vehicle if you park in a designated winter recreation parking area (Sno-Park) **between November 1 and April 30**. Each of these areas are posted with signs identifying them as a WINTER RECREATION AREA. You will find Sno-Parks in all mountain passes of the state as well as most recognized ski, snowmobile, and snow play areas.

Oregon's Sno-Park Program is funded entirely by the sale of Sno-Park permits. The program provides funds for snow removal in Sno-Parks and enforcement of the permit requirement. Any money remaining may be used for maintenance and development of Sno-Parks or carried over for use in a following year.

There are three types of permits: an annual permit which costs \$25, a 3-day permit which costs \$9, and a daily permit which costs \$4. Permits are sold at all DMV offices and by permit sales agents at various resorts, sporting goods stores and other retail outlets. Sales agents may charge an additional service fee for each permit they sell.

The cost of the annual permit provides a discount to frequent Sno-Park users over the three day and daily permits. A survey of Sno-Park users indicated that most annual permits are used more than 13 times per winter.

Sno-Park permits issued by California and Idaho are honored in Oregon and Oregon permits are honored in those states. Parking in an Oregon Sno-Park without a permit may result in a \$30 fine, so be sure to obtain a permit and display it on your vehicle.

CHAIN AND TRACTION TIRE REQUIREMENTS

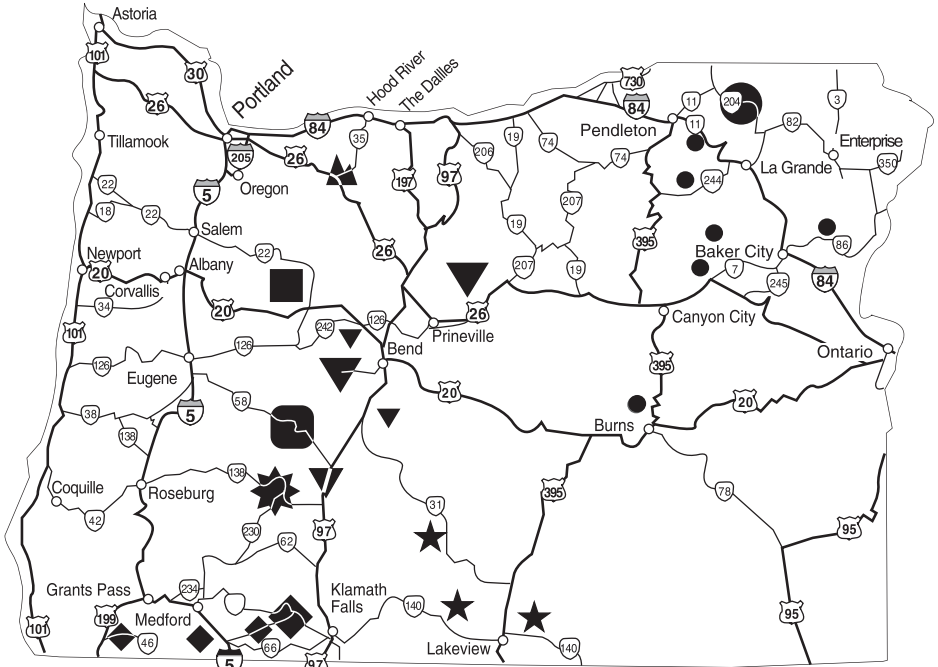

When you travel in winter conditions you must carry chains or traction tires in or on your vehicle, and must use them, when required by the signs posted. Under some conditions, four-wheel and all-wheel drive vehicles may be exempt from the requirements to use chains.

- “Chains” include link chains, cable chains, or any other device that attaches to the wheel, vehicle or outside of the tire that is specifically designed to increase traction on ice and snow.
- “Traction Tires” are studded tires, retractable studded tires, or other tires that meet the tire industry definition as suitable for use in severe snow conditions.
- Tires designated by the tire industry display an emblem on the tire sidewall like this:

- “Retractable Studded Tires” are tires with embedded studs that retract to at or below the wear bar of the tire and project not less than .04 inch beyond the tread surface of the tire when extended.
- “Studded Tires” are tires with studs that wear at the same rate as the tire tread and extend at least .04 inch but not more than .06 inch beyond the tread surface of the tire. Studded tires are only legal in Oregon from November 1 through March 31.

Operating a vehicle that is not equipped with proper traction tires or chains when required, is a Class C traffic infraction. For more information on Oregon’s chain and traction tire requirements, go to ODOT’s travel web page at www.tripcheck.com

OREGON SNO-PARKS

Most of Oregon's Sno-Parks are on U.S. Forest Service land. The land managers provided the information on activities available at or near each Sno-Park for this brochure. For questions on the activities available or to obtain trail maps please contact the appropriate land manager. A list of Sno-Park land managers is included on page 17.

Mt. Hood

A. Timberline

6 miles north of Government Camp.
Mt Hood National Forest.

B. Glacier View

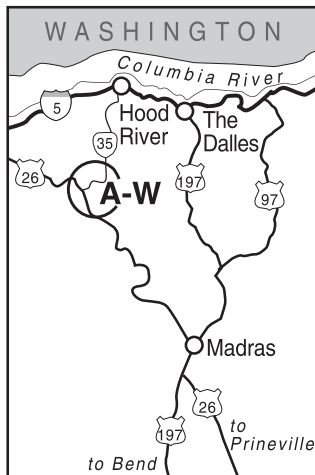

1/2 mile west of Government Camp
on US 26. Mt Hood National Forest.

C. Ski Bowl West

Across from Government Camp off
US 26. Mt Hood National Forest.

D. Ski Bowl East

South of Government Camp off
US 26. Mt Hood National Forest.

E. Summit Ski Area

Located at Government Camp on US 26. Mt Hood
National Forest.

F. Government Camp

Government Camp Loop Road. Mt Hood National Forest.

G. Government Camp Maint. Sta.

1/4 mile east of Government Camp on US 26. Mt Hood
National Forest.

H. Snow Bunny Lodge

3 miles east of Government Camp on US 26. Mt Hood
National Forest.

I. Trillium Lake

3 miles east of Government Camp on US 26. Mt Hood
National Forest.

J. Barlow Pass

2 miles north of US 26 on ORE 35. Mt Hood National Forest.

K. Boy Scout Camp

4 miles north of US 26 on ORE 35. Mt Hood National Forest.

N. Horseshoe Prairie Road

7.5 miles east of Tollgate on ORE 204. Umatilla National Forest.

O. Andies Prairie

8 miles east of Tollgate on ORE 204. Umatilla National Forest.

P. Milepost 27

8.5 miles east of Tollgate on ORE 204. Umatilla National Forest.

Q. Oregon Trail–Blue Mtn. Crossing

1 mile south of I-84, exit 248 on old US 30. Wallowa–Whitman National Forest.

R. Mt. Emily

6 miles east of Meacham on Forest Service Road 31. Umatilla National Forest.

S. Clear Creek

7 miles north of Halfway on Forest Service Road 66. Wallowa–Whitman National Forest.

T. Ferguson Ridge

10 miles south of Joseph on Tucker Down County Road 633. Wallowa County.

U. Catherine Creek

14 miles south of Union on ORE 203. Wallowa–Whitman National Forest.

V. Huddleston

22 miles east of Prairie City on County Road 62. Malheur National Forest.

WINTER DRIVING CHECKLIST

Traveling in Oregon's snow country can be hazardous, especially if you are caught in a severe storm. The following checklist will help you be prepared in case you must travel during heavy snow.

Check your car—

Before leaving on a trip, you should check your car for the following:

- Is there sufficient anti-freeze in your radiator?
- Are the windshield wipers in good condition, and is the reservoir filled with winterized washer fluid?
- Are the muffler and exhaust system in good condition? A leaking exhaust system can fill a closed car with carbon monoxide gas.
- Is the gas tank filled? Long waits during storms are common.
- Is the defroster in good working order?

Extra equipment—

The following items will help you in case of an emergency, such as getting stuck in a snowbank:

- Small shovel.
- Flares.
- Bag of sand, rock salt or a skid mat.
- Ice scraper and brush to remove ice and snow from your vehicle.
- Rags or paper towels to clean the windshield.
- Battery booster cables.
- Warm, waterproof clothing, boots and gloves.
- Blankets.
- Flashlight with extra batteries.
- Emergency food supply.
- Extra drinking water.

- **Remember!** Oregon's weather can change quickly, so be prepared. Call ahead for road conditions. In Oregon, call 5-1-1 (If 3-digit dialing is not available from your phone service provider call 1-800-977-6368). When calling from outside Oregon, dial 1-503-588-2941. You may also access road conditions and highway cameras by going to ODOT's travel web page at www.tripcheck.com
